ECODROIDS

who we are?

An innovative NFT project combining Web3 gaming, AI-driven automation, and compelling storytelling.

Our mission is to raise awareness about **electronic waste** through engaging gameplay and immersive lore while building a strong NFT-powered ecosystem.

Our team consists of experienced developers, designers, and storytellers with a background in Web3, gaming, and digital marketing. We previously launched a successful game that raised awareness about stray animals, and now we are expanding our efforts to tackle the growing issue of electronic waste.

ECODROIDS

THE PROBLEM & OUR SOLUTION

⌚ The Problem:

- E-waste is a growing crisis, yet few people discuss its environmental impact.
- Web3 gaming lacks meaningful engagement beyond speculation and trading.
- Most battle royale games require heavy time investment, limiting accessibility.

🚀 Our Solution:

- A unique Web3 battle royale game with an AI-powered companion to automate tasks when players are unavailable.
- Engaging NFT mechanics tied to the game, enhancing utility and long-term value.
- A lore-driven experience (comics/manga) to educate and entertain, spreading awareness in an interactive way.

UNIQUE SELLING PROPOSITION

What Makes Us Different?

- ♻️ **Eco-Conscious Gaming:** Educating players about electronic waste through an interactive medium.
- 📖 **Story-Driven Ecosystem:** Rich lore and NFTs that connect across games, comics, and digital collectibles.
- 🎮 **Unique Battle Royale Mechanics:** A fresh take on the genre, blending strategy with automation.
- 🤖 **AI-Powered Gameplay:** Unlike traditional battle royale games, our AI assistant helps manage tasks when players are away.

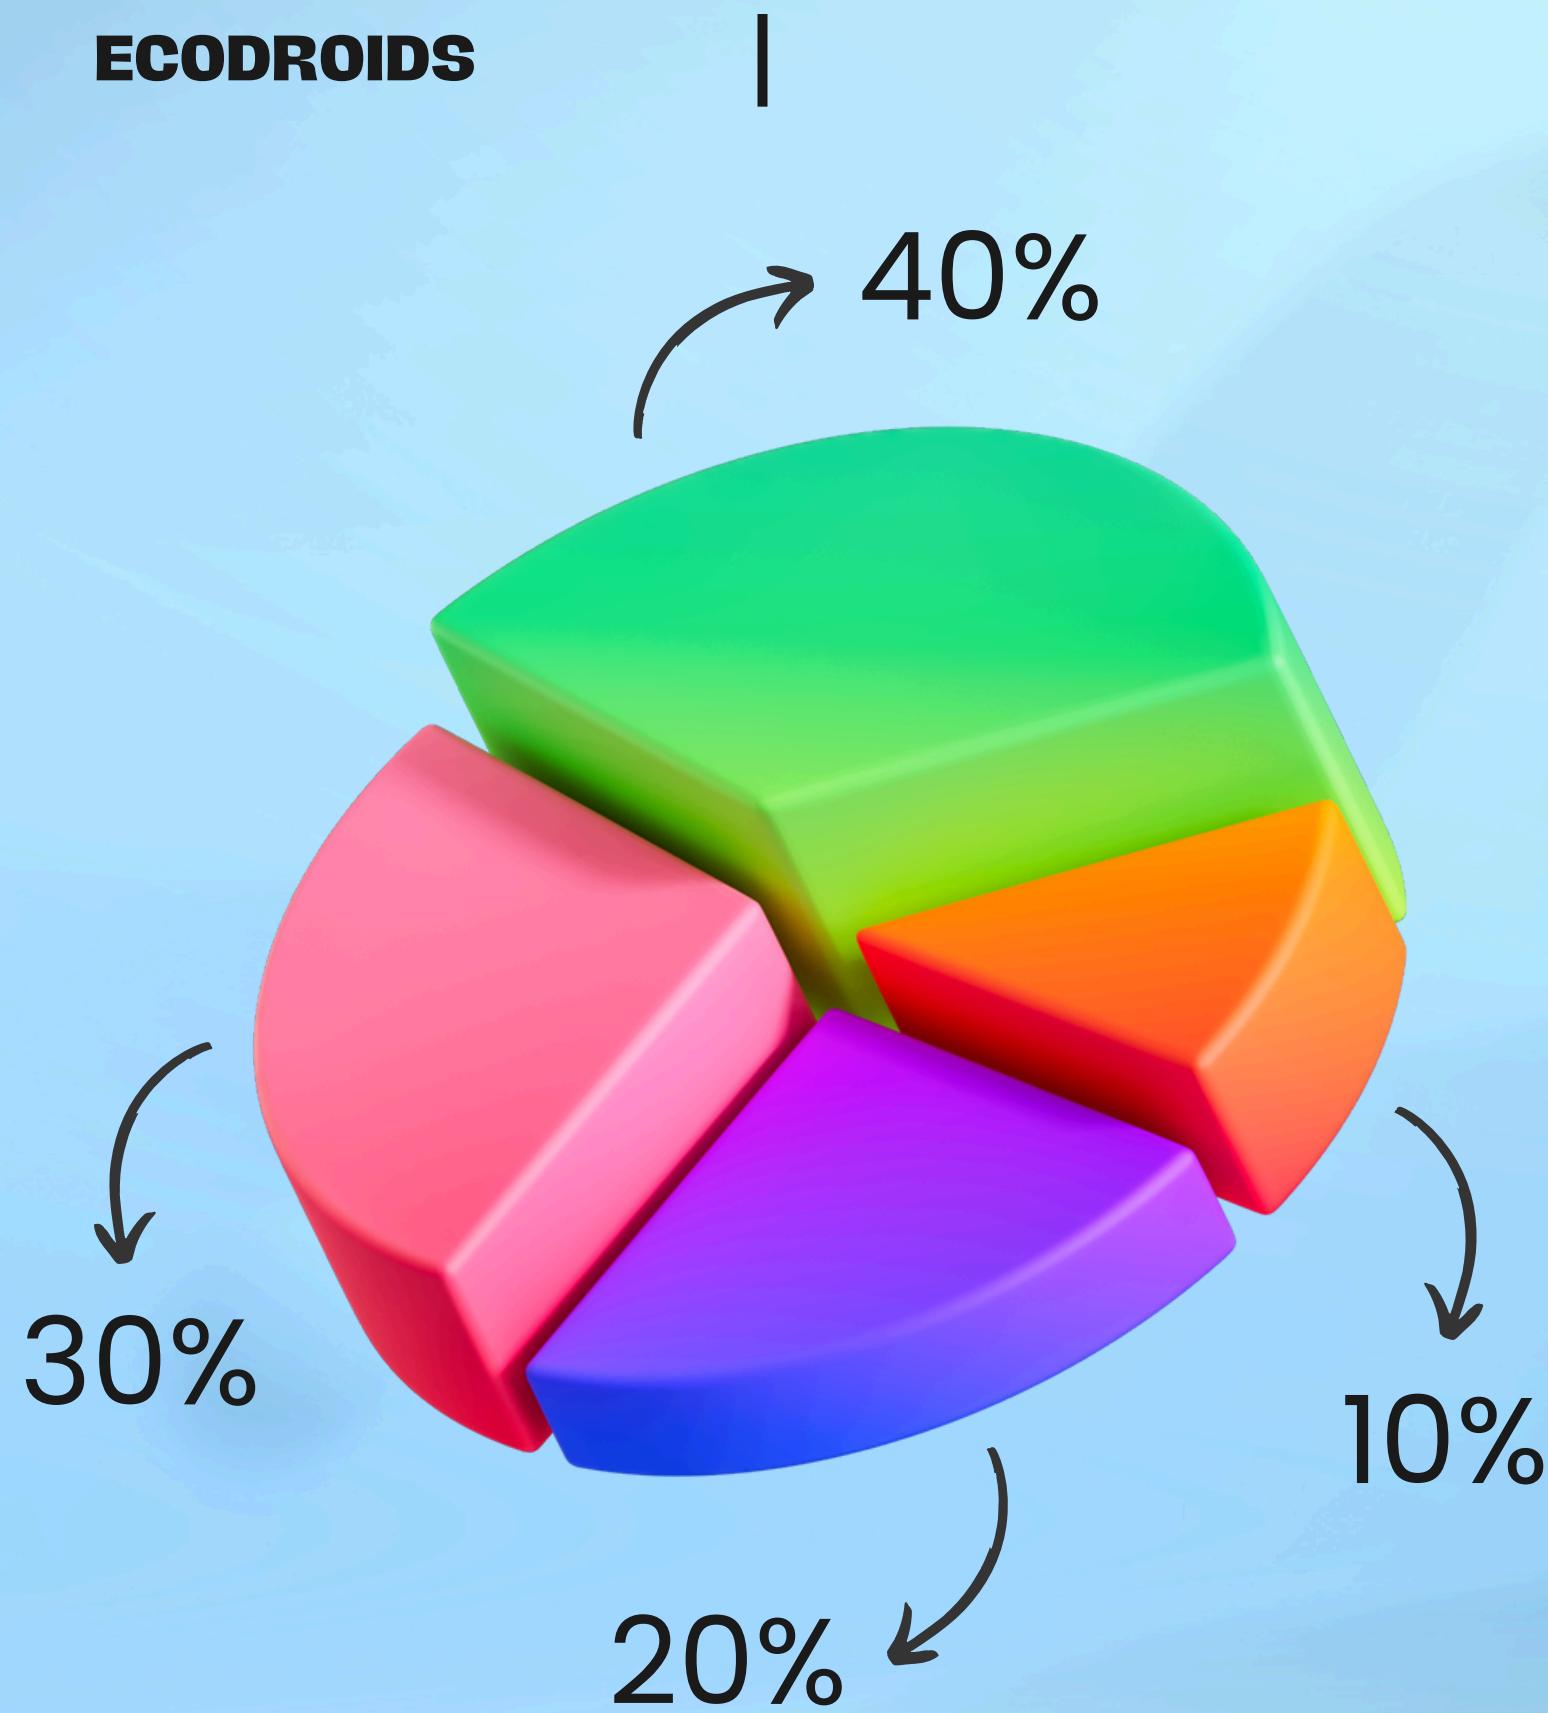

BUSINESS MODEL

We are building a sustainable NFT ecosystem that blends gaming, collectibles, and AI utilities. Our revenue model includes:

🏛️ Core Business Model:

- 📸 **NFT Sales** – Characters, skins, and exclusive assets that enhance gameplay.
- 🛒 **In-Game Purchases** – Boosts, AI assistants, and premium features.
- 💰 **NFT Royalties** – Secondary market sales generating ongoing revenue.
- 💰 **DAO Token (\$DROIDS) Utility** – Governance, staking rewards, and exclusive perks.

ECODROIDS LORE

In a unique solar system with five planets sharing one orbit, Axis is home to the Axants—small, curious beings with large, twitchy ears. Once a hub of innovation, the Axants fell into a dull, stagnant life after a brilliant inventor's energy project failed catastrophically. She was exiled, and the Axants lost their creative spark.

Among them is Astrid, an outlier who secretly builds and explores. Fascinated by Earth, he crafts a spaceship to visit it, but his secret gets out. The fearful council exiles him, just like the inventor before him. Astrid then finds Sphera, a trash-filled planet between Axis and Earth, polluted with Earth's e-waste. Though saddened by its condition, he sees potential and transforms it into a land of opportunity using scrap materials. To combat loneliness, he builds three companion robots: Splash (water), Stomp (land), and Soar (air), calling them the Ecodroids, designed to clean and protect the planet.

Eventually, Astrid's curiosity pushes him to explore again. He builds a massive spaceship, brings hundreds of Ecodroids, and discovers a dark, barren planet he names Hades. However, its strange electromagnetic field corrupts the Ecodroids, turning them evil. Astrid barely escapes with his life, returning home haunted by his failure and the birth of Evil Ecodroids.

3 FACTION OF SPHERA

🌍 Welcome to Sphera – Where Trash Transforms Into Treasure! 🤖🌟

Sphera is no ordinary planet—it's a massive scrapyard floating in space, where forgotten tech and electronic waste are reborn as powerful little robots called Ecodroids. These aren't your average bots—they evolve with unique traits based on how and where they're forged.

🔥 The 3 Legendary Factions of Sphera 💧⚡⚡

1 Hydromelters (Water Fraction) 💧

Specialists in using high-pressure steam to melt and reshape metal. Their creations are sleek, efficient, and full of flow—literally powered by water-based engineering.

2 Aeromelters (Air Fraction) ⚡

Masters of heat and velocity, they use superheated air to forge bots in midair. Fast, adaptive, and always on the move—these Ecodroids bring the storm to the battlefield.

3 Geomelters (Earth Fraction) 🌳

Bold innovators who mix raw earth with radioactive decay to create some of the toughest bots in the galaxy. Durable, grounded, and full of raw power.

💡 Why Does This Matter?

Because it's more than just a game—it's a movement.

We're cleaning up Sphera while giving our community a chance to own, play, and earn with real impact.

Oh, and did we mention?

💰 Mint a Legendary Faction Leader and you will instantly get 10 SOL.

It's a gift from our **FACTION LEADER**, The legends aren't just powerful—they're rewarding too.

Join the revolution. Power up your Ecodroid. 🍞
